## Corques Sofa by Lucie Koldova for PER/USE

Posted by Erin on April 16th, 2014

[Lucie Koldova](#) has designed Corques, a sofa made from cork and fabric for manufacturer [PER/USE](#).

#### Description

Corques sofa uses cork as a basic shell material.

This sustainable cork comes from production leftovers in Portuguese bottle cork factories. The sofa is defined by a strong, sparkling design; soft look going hand in hand with a timeless character and environmental awareness.

A curvaceous, organic outer contour combines the earthly coloured cork with the contrasting colourful Divina fabric from Kvadrat.
