# GUILLOTINE

by Jeffrey Huyghe

**Guillotine is designed with the idea in mind to keep your hallway clean and gorgeous. The mirror is combined with a full walnut or oak drawer.**

Your keys and wallet are neatly and safely stored in the drawer, which opens with a hidden button. The inside of the drawer is made of leather.

The concept is all about the illusion of the mirror cutting through the drawer like a 'guillotine'. The design of the mirror as well as the drawer blends into each other because they are identical in form. In frontal view, they are one.

The Guillotine is available in round and rectangular. The drawers are available in oak natural oiled or in walnut natural oiled.
